

MumzyCRF – 2011-2022

Who Mumzy is – and – what she accomplished up to 2022

Mumzy – AKA Albertine (Toutou) Scray is a philanthropist serving in Africa and USA. Founder of MumzyCRF, a 501c tax exempt nonprofit based in Illinois.

Mumzy CRF currently sponsors the annual education of over 3,000 children, has 30 teachers on her payroll and has reopened 9 schools, built 4 new schools, sponsored 9 orphanages in the poorest communities, has brought filtering water projects and wells to many villages and has Solar Power for a community coming soon.

She brings a mobile hospital to the deep jungle with free treatment for the communities.

She also runs Mumzy Coffee where all profits go to the poor.

Mumzy empowers children and communities in remote rural villages to lift themselves out of extreme poverty through education and sustainable projects like the best way to produce and sell local products such as Targeted agriculture, soap making, crafts, sustainable crops, sewing..

Mumzy Africa

- **Mumzy** – In the communities where she serves, there's no clean water, no electricity, no roads, no medical center, almost no accessible education
- **Now** – MumzyCRF fights for women's rights, their freedom and against early marriage, early pregnancies and FGM. In villages where she serves, girls stop going to school as soon as they get their periods due to the lack of feminine pads. In some of those communities, having their period means that the girl is ready for marriage, which is the saddest thing for girls.
- Mumzy makes education possible to all young village girls by paying their tuitions, school supplies and bringing washable pads so that they can have the same access to education as boys. BTW: The majority of illiterate children are girls. <http://gofund.com>
- **Education:** Mumzy sponsors 13 schools in Africa having 3,140 children, has 30 teachers on her payroll. <https://mumzycrf.org>
 - 1 -One school under construction is an elementary bilingual school and a boarding school.
 - 6 have been rebuilt and reopened
 - 4 have been sponsored where they would be closed otherwise.
 - Plus 2 more are in process for adoption
- **Orphanages:** Mumzy sponsors 12 orphanages in the poorest of poorest communities supplying food, supplies and education
 - 6 in Cameroon
 - 6 in Kenya
- **Water:** Mumzy has brought 60 plus clean water filtration projects in Cameroon and Kenya serving thousands of people who otherwise would not have sanitary clean water. 4 water wells have been dug and put in place.
- **Solar Energy:** Coming Soon.
- **Community Organization and Empowerment:** Mumzy works with 30 plus communities in Cameroon, Kenya and in the USA to encourage sustainable projects such as agriculture and crafts and women's rights.
- **Medical: Mobile Hospital (with Ascovime/Dr. Georges Bwelle [CNN Top 10 Hero award recipient](#))** Mumzy sponsors an annual mobile medical event deep in the jungle of Cameroon where literally thousands are treated at no cost. Treatments include surgery, disease management, optical, dental and pharmaceutical. Each trip has over a dozen doctors, nurses and medical professionals bringing their craft to the toughest locations in Cameroon.
- **Mumzy Coffee:** She also runs Mumzy Coffee where all profits go to the poor. She brings the finest coffee to the USA.
